Complaint/Grievance Policy

The school shall receive and process any complaint filed by any party which reasonably suggests that the school may not be in compliance with applicable federal, state, or local laws and regulations, or lack educational quality or a violation of accreditation requirements. The school may at its discretion, refuse to process any complaint which appears to be frivolous or groundless, or which is submitted anonymously. The following procedures outline the specific steps in the complaint process.

- Complaints shall be submitted in writing and signed by the complainant on the designated form provided by the school within 60 days of the date the act which is the subject of the grievance occurred.
- A complaint must state the basis for any allegations of noncompliance.
- A complaint alleging that the school is in noncompliance shall contain all relevant names and dates and briefly describe the actions forming the basis of the complaint. Copies of the supporting documents should accompany a complaint based upon written evidence. Any other documents or materials that support the allegation should also accompany the complaint.
- Receipt of the complaint shall be acknowledged by personally delivering to the office of the President.
- The complaint will be reviewed by school leadership and a response will be sent in writing to the student within 30 days of receiving the complaint. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and/or actions being taken regarding the complaint.
- If the complaint is of such nature that it cannot be resolved by the President, it will be referred to an appropriate agency if applicable. Depending on the extent and nature of the complaint, interviews with appropriate staff and other students may be necessary to reach a final resolution of the complaint.
- In cases of extreme conflict, it may be necessary to conduct an informal hearing regarding the complaint. If necessary the school will appoint a hearing committee consisting of one member selected by the school who has no involvement in the dispute and who may also be a corporate officer, another member who may not be related to the student filing the complaint or another student in the school, and another member who may not be employed by the school or related to the school owners. The hearing will occur within 90 days of committee appointment. The hearing will be informal with the student presenting his/her case followed by the school's response. The hearing committee will be allowed to ask questions of all involved parties. Within 15 days of the hearing, the committee will prepare a report summarizing each witness' testimony and a recommended resolution for the dispute. School management shall consider the report and either accept, reject, or modify the recommendations of the committee. Corporate management shall consider the report and either accept, reject, or modify the recommendations of the committee.
- Students must exhaust the institution's internal complaint process before submitting the complaint to the schools accrediting agency or licensing board, if applicable.

The school will maintain written records of all complaints filed for the past two (2) years.

Counseling Resources and Procedure

For job leads and job hunting strategies, please see the Director of Education, Tarina Foster. Although we cannot guarantee placement as an incentive for a student to enroll, Jenks Beauty College offers placement assistance to its students. We post notices for area salons looking for qualified stylists and technicians, and we will work toward placing graduates in the salon they prefer. Salon owners and managers are regularly scheduled to make presentations to our students, to demonstrate skills and speak about their salon's career opportunities upon graduation.

For counseling resources, please report to the Director of Education or the President's office. There is a student resource board which lists public health, charity and mental health resources located in the student break room.

Reference Materials and Library

Jenks Beauty College maintains reference materials throughout the school to supplement the learning materials provided to the student.

Please see posted floor plans with exits throughout the school.

Emergency Response and Evacuation Procedures

FOR ALL EMERGENCIES CALL 911

A fire emergency evacuation is initiated when a fire incident occurs.

The objective: all building occupants are safely evacuated to a safe distance and location from the building affected, away from fire hydrants, fire lanes, and not under power lines.

Fire evacuation procedures:

Evacuation is mandatory when a fire alarm is activated.

Designated staff or faculty check the affected building(s) to ensure all personnel are appropriately evacuating.

- Assist people with disabilities if possible.
- Ensure all doors and windows are closed as a room and building are evacuated.
- Do not attempt to reenter the facility unless and until directed to do so by authorized personnel. Evacuated persons are directed to a safe distance and location from the building affected, away from fire hydrants, fire lanes, and not under power lines.

The National Fire Protection Association recommends that you should only stand and fight a fire if all of the following are true:

- Everyone is leaving the premises and fire department has been called
- The fire is small and confined to the work area where it started (wastebasket, cushion, small appliance, etc.)
- You can fight the fire with your back to an escape route.
- Your extinguisher is rated for the type of fire you are fighting and is in good working order.
- You know how to operate the extinguisher.

LOCATION AND USE OF FIRE EXTINGUISHERS

Fire Extinguishers are located throughout the school, usually near an escape route.

Follow the instructions on the Fire Extinguishers

- Pull the pin
- Aim the Nozzle
- Squeeze the Handle
- Sweep from side to side at base until fire goes out.

EMERGENCY EVACUATION FOR BOMB THREAT OR OTHER NON-FIRE SITUATION

Non-fire emergency evacuation is used for any emergency evacuation not related to a fire incident. It is important to remember that evacuation distances significantly expand, up to hundreds of yards, for suspicious object evacuations. Nevertheless, not all bomb threats will necessarily result in evacuation, depending upon the individual event circumstances.

The objective: Move all campus occupants to a remote, and controlled location. Other Evacuation Procedures: Staff will assess the situation and direct students accordingly.

EMERGENCY LOCKDOWN

Emergency Lockdown is used to dramatically and rapidly enhance the level of security in the facility. By locking all exterior, interior and class doors, staff can make it more difficult for dangerous person(s) in the vicinity or in the facility to gain access to staff and students.

Note - locking doors should not eliminate immediate egress possibilities from the facility
The objective: create as many physical layers of separation between you and the potential aggression. Emergency Lockdown Procedures:

1. Make sure entrance points to the building near your location are locked immediately.
2. If you are located in an area with a door that can be locked, gather all students and clients in the vicinity into the room and lock the door.
3. Improvise additional door blocking if possible.
4. Close blinds and cover additional windows, e.g., with a shirt, up-turned table, paper, etc.
5. Turn off lights in the room.
6. If possible, report your status to the lead administrator or designee by telephone or intercom.
7. Do not open the door for people claiming to be public safety personnel unless you have an opportunity to view photo identification or are instructed to do so by a staff member whom you recognize

Shelter in Place

Sheltering in place procedures are traditionally utilized when:

1. A tornado has been spotted.
2. There has been a chemical or biological incident outside of, but in proximity to, a facility and available information indicates that there is no adequate time to evacuate building occupants to another safe location before the dangerous contaminants reach the facility.

Objective: seek immediate shelter away from doors and windows and remain there during an emergency.

Staff Response

1. All staff that are outdoors should quickly gather all students and adults in the area and instruct them to go inside the facility immediately. Once inside, if possible, instruct everyone to move to an interior area without windows and doors.
2. Close all windows and doors.
3. In chemical spills/ biological incidents - if available, use tape to cover all windows and doors with sheets of plastic to help reduce airflow into the area. Wet towels can be used to reduce airflow under doors. Close all outside air vents. Turn off all heating or ventilation systems. Use damp towels or cloths to cover any openings in walls or doors. Tape can also be used to cover any cracks, crevices, electrical outlets, cable television connections or other openings that might allow air to flow into the shelter area.
4. Listen to local radio or television news for instructions from emergency management and public safety officials.
5. Review emergency evacuation protocols.
